Description: Residence Case di Scheggino, Valnerina Scheggino

We have a diffused hotel in Scheggino, Umbria, ITALY.

Scheggino lies in a privileged position for visiting some of the most important historic and naturalistic sites in Italy. It is possible to follow **trekking paths** in the valley along the river or on the neighbouring mountains, which are sheer delight epitomizing the fauna and flora of the region. It is an area of **historical interest due to the various abbeys, cloistered monasteries, and above them all the town's Church, which dates back to 1200.**

It lies in the centre of Umbria, in an area of small- scale agricultural production, which boasts of its **wine, oil, cheese and most particularly black Truffle**, which are to be found in the neighbouring mountains.

The town consists of the classic medieval borgo now entirely restructured, with a population of less than a hundred resident families. It is a quaint little town with a material and spiritual peacefulness.
